

## HuMUS - WP4 pilot projects

### Final Report KLAR region Tullnerfeld Ost

#### Publishable summary

In Soil Health Talks, quadruplex stakeholders of the KLAR region Tullnerfeld Ost have worked on soil health in the region in all its aspects. In Soil Health Talks a consortium consisting of Environment Agency Austria, University of Natural Resources and Life Science and Federal Research Centre for Forest have worked in the region to enable an understanding of soil health and to protect and restore soil health at municipal and regional scale.

In workshops and on experiment-days representatives of academia, local economy, government, and the general public made use of scientific methods of soil science, plant cultivation and biodiversity to gain an understanding of the importance of soil protection. The stakeholders have experienced and discussed soil health on general level as well as on specific level. The project has thus contributed to an increase in understanding soil health at Tullnerfeld Ost.
